

ELECTRONIC MOSQUITO-AWAY

KEEPING THOSE NUISANCES OUT OF YOUR WAY!

Electronic Mosquito-Away helps you to get rid of the stinging insects such as mosquitoes, gnats. This newly designed model is to satisfy both domestic use and outdoor use.

Entomology ecology proves that only female mosquitoes will bite human beings, animals when they are in their breeding period. By nature, female mosquitoes will try their best to avoid the disturbance of male mosquitoes. **Electronic Mosquito-Away** exploits this nature to produce sound waves with frequency around 6,000 Hz. to imitate the sound of male mosquitoes in order to get rid of the spawning female mosquitoes. The sound generated by **Electronic Mosquito-Away** is harmless to pets, humans, and animals.

Electronic Mosquito-Away is good for both indoor use and outdoor activities. Simply insert 2 pieces AA(1.5V) battery, the device is ready to use. The built-in 'push-on' button helps you to turn on and turn off the device. The effective range of **Electronic Mosquito-Away** is around 20 square meters.

Electronic Mosquito-Away uses no chemical. It is suitable for use in houses, garden and outdoor activities, such as camping, gardening, fishing, etc.

INSTRUCTION

1. Remove the bottom case as the below by twisting it counterclockwise.
